25X1A [REDACTED] Comment. This State Secretariat was reorganized on 15 February 1953. It is now called State Secretariat for Chemistry. Main Administration Chemistry remained with the new State Secretariat but was split into four different main administrations. Main Administration Stones and Earths was transferred to the Ministry for Construction. Jenapharm, which belonged to the old State Secretariat at the time when the above control report was made, was transferred to the Ministry for Health.

25X1A [REDACTED] Comment. Comparable production (Vergleichbare Production) means production of items which were also produced during the preceding year.

25X1A [REDACTED] Comment. Non-comparable production (Nicht Vergleichbare Produktion) means production started during the report year.

25X1A [REDACTED] Comment. Small quantities of streptomycin were produced on a laboratory scale.
